DSO 599 – Text Analytics & Natural Language Processing
Final Project 360 Group Evaluation

Instructions: Under each teammate's name, list his/her major contributions to the group project. Please be as specific as possible (ie. do not write "Helped with the presentation", instead write "Made the screenshots for our code in the technical slides of our slide deck."). Then, please assign a percent of contribution – the sum of these percentages must add up to 100%.

Your Name: _____   **20% of total contribution (you write in your opinion)**
- *Developed the classification model and technical writeup slides*
- *Experimented with different vectorization techniques and reported performance*
- *Asked 2 of our groups questions during the Q/A phase*

Teammate #1: _____   **20% of total contribution (you write in your opinion)**
- *Performed initial research on dataset*
- *Handled all communications on Slack with professor*
- *Presented business recommendation Slides*
- *Conducted the initial data exploration (distributions of features, summary statistics)*

Teammate #2: _____   **20% of total contribution (you write in your opinion)**

- *Handled Q/A session*
- *During other teams presentation, asked 2 of our group's questions*
- *Set up Github repository and S3 bucket for our code and dataset*

Teammate #3: _____   **20% of total contribution (you write in your opinion)**
Created and formatted slides to be presentation (client) ready
- *Organized meeting times and coordinated schedules so we could meet on Saturday, Sunday and Monday prior to presentation*

Teammate #4: _____   **20% of total contribution (you write in your opinion)**

Teammate #5: _____   **____% of total contribution**

Teammate #6: _____   **____% of total contribution**
